

EL RENO *Insights*

2025 May

City of El Reno, Redlands Community College receive Regents Business Partnership Excellence Award.

This distinguished honor celebrates the dynamic partnership that has significantly contributed to education, workforce development, and community growth standards throughout the area.

We've had a lot of rain over the past several weeks, which has been great for our ponds, lake, and groundwater levels. Of course, all that rain means the grass is growing fast! It takes all of us working together to keep El Reno beautiful, and we each play a role in maintaining our properties and neighborhoods. Our city crews are hard at work mowing parks, rights-of-way, and the lake area to ensure our public spaces look their best.

It's also been a busy season for events! We celebrated the ribbon cutting at The Filling Station and broke ground on the new terminal at the El Reno Regional Airport. Burger Day was a major success—thanks to all of the city crews and volunteers who made it happen, especially the Fire Department, who make the big burger possible! And hats off to El Reno Main Street for organizing such a fantastic event! It was a great day for our community and for visitors to experience what makes El Reno special.

-Matt Sandidge, City Manager
City of El Reno

Local and state leaders joined residents to cut the ribbon on the new Filling Station Visitor Center—El Reno's Route 66 gateway. The center will offer clean restrooms, El Reno souvenirs, and visitor information. An official opening is expected around the beginning of June, with a grand opening celebration to come! Photo / Courtesy

Thank you to the City of El Reno staff and volunteers for your hard work during the 37th Annual Burger Day!

A special thank you to the El Reno Fire Department for cooking up the 'Big One' each year—we couldn't do it without you!

El Reno Street Crews Tackle Repairs as Skies Begin to Clear

Our Streets and Drainage crew is working tirelessly to keep up with the challenges brought by the recent rains. Between clearing debris, managing runoff, and responding to drainage concerns, their workload has been non-stop. The downpours have also revealed new potholes/sinkholes and caused significant wear on our rural rock roads, making the task even more demanding.

Despite limited resources, these crews are making steady progress—day by day, street by street. Their dedication ensures that our infrastructure remains safe and functional, and we’re grateful for their commitment to serving the residents of

El Reno. It’s not easy work, but they continue to rise to the occasion with determination and pride.

Here’s a look at what the team is working on:

Rural Road Grading: As weather permits, crews are grading rural roads and hauling rock and millings to 122nd Street to improve drivability.

Pothole Repairs: Focus areas include Britton, Wilshire, Darlington, Reformatory, Alfadale, and various city streets.

Culvert Replacements: A 72-inch culvert east of Banner on Jensen Road is being replaced, along with another culvert on 27th Street west of the MW Bus facility.

Pictured: Jesse Trejo, Braydon Horn and Brett Holding work on Shepard Road north of Britton, patching potholes and rolling out fresh asphalt.

Sinkhole Investigations:

Crews are exposing and diagnosing sinkholes on Macomb, Magnolia, and Grisham to determine next steps for repair.

Street Cut Repairs: Several street cuts are scheduled for repair to prevent further damage and ensure safety.

Drainage and Ditch Work: Ditch cleaning has resumed at Highway 81 and Jensen.

Crews are also cleaning out the Parkview Drive ditch.

Mowing drainage channels continues citywide to prevent overgrowth and blockages.

Concrete and Curb Repairs:

Sidewalk repair is underway on Sunset Drive.

Crews are repairing a sinking curb at the intersection of Ellison and Elm.

Residents are asked to be cautious around work zones and report any issues via the City of El Reno’s website under “Report an Issue” or click the link below:

<https://elrenook.gov/226/Report-an-Issue>

Thank you to everyone who joined us for the groundbreaking of the new El Reno Regional Airport terminal!

Your support helps propel El Reno forward. Stay tuned as we build the future of aviation in our community.
